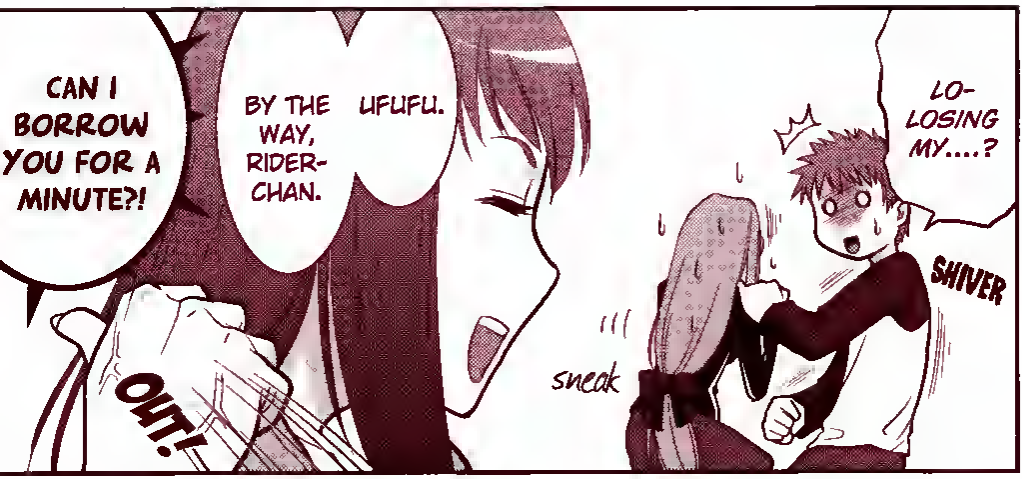
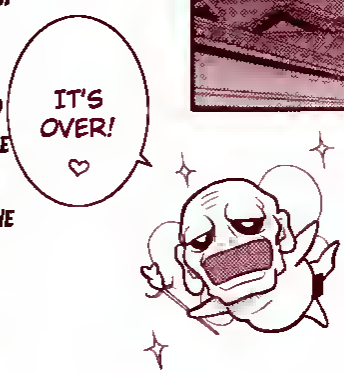
SA, SAKURA-SAN?



Hi, it's Task Ohna. Thank you for picking up this book.

I really like Rider-san but up till now I haven't been able to draw much manga of her, so I'm happy that I got to draw this book. I like the Matou family, and it seems like this past six months I haven't drawn anything but the Matou characters (I group Dark Saber with the Matou family), but it's been fun so I'm okay with it. I drew both White and Black Sakura, but I get the feeling that White Sakura is more malicious... Black Sakura actually appears kinder, haha. In my personal preference, I prefer Sakura as the mother of the Matou family rather than as Shirou's bride (though I imagine she thinks differently), so I drew that manga. For forcing the Hollow world closer to Sakura's route... my apologies. It's okay making the Matou family get along, right? I regret not drawing the old man though- though- Speaking of Zouken, I went and drew a small bonus illustration of the old man to surprise you, but what he's talking about, I have no idea. It's quite fun! Uhehehe.



The next page and the colophon were illustrated by Munakami Rondo-kun, so thank you! Let's do this again! Well then, if fate allows, let's meet again.
